

## INSTALLATION INSTRUCTIONS

### 4 Foot LED Light Bar (9A505R)

---

#### SAVE THESE INSTRUCTIONS

#### IMPORTANT SAFETY INFORMATION

For your protection, read instructions before installation.

Electric current can cause serious injury, or death. For your safety, remember the following:

- Plug the fixture into a grounded receptacle to avoid potential electrical shocks.
  - Do not handle a fixture that is on.
  - Check all electrical connections to be sure they are tight and correct.
- 1) Specific safety information concerning fixture:
    - Do not remove or install fixture when plugged in.
    - Protect fixture from direct contact with water.
    - Do not operate fixture without covers in place.
  - 2) Install fixture per all applicable national and local electrical codes. **THIS PRODUCT MUST BE INSTALLED IN ACCORDANCE WITH THE APPLICABLE INSTALLATION CODE BY A PERSON FAMILIAR WITH THE CONSTRUCTION AND OPERATION OF THE PRODUCT AND THE HAZARDS INVOLVED.**
  - 3)  **CAUTION: RISK OF FIRE.** All fixtures listed above are rated for use in 110-277V, 50-60 Hz protected circuit and 75°C rated supply wire. Prior to installing the fixture, check fixture for any signs of damage due to shipping. If damage has occurred, please contact the place of purchase. They will assist you in replacement or repair if required.

#### Installation

- 1) **Mounting.** The fixture is designed for indoor use only.
  - a) Suspend the fixture using a minimum of two steel cables with at least 50 lbs. of tensile strength each (cable kits are sold separately).
