## 48V LED Mini Tube

Catalog Number
Notes
Type

### General Description

An innovative 48 Volt LED Mini Tube System that offers bright efficient low glare lighting. The Mini Tube System is available in 5 lengths from 6" to 36". It can be easily mounted with conduit clips and be daisy chained to conform to your needs.

### Features and Benefits

- Shadow-free lighting (28 LED's per foot)
- 48V DC, good for long spans
- Color temperature 4000K
- CRI > 85
- Durable, lightweight, and mercury free
- Dimmable
- WARRANTY—5 year limited warranty

Display cases similar to the one in the photo above are ideal applications for the 48 Volt LED Mini Tube System.

Two 4" wires with barrel connectors exit the end-caps allowing for wiring around corners and longer spans. Also allows for quick plug and play.

Bring attention to your business or product with Indak's 48 Volt LED Mini Tube System.
